For Comparison

How do the regular dealers buy their tennis shoes? In one-, two- or three-dozen-pair lots from regular jobbers on 30 to 60 days or longer terms. The jobber makes a fair profit.

We make a short cut when we buy our tennis shoes from the rubber mills. We buy in 200- to 1000-pair lots. At times we buy close-outs from jobbers when they are willing to take a loss of from 50c to \$1.00 a pair.

We retail more Tennis Shoes at Redondo Beach than any store that size in California. We have the reputation of selling for less, and summer and winter tourists load up when at the beach on account of our lower prices. TORRANCE PROFITS by our other stores' outlet.
